

Drive Advanced Enzyme Power

Powerful Enzymes and Built-In Deodorants Remove Odours, Dirt and Stains for a fresher, Cleaner Wash

Advanced Enzyme Power Drive is suitable for use in all machine types. In hot or cold water nothing removes dirt and odors like Drive formulation.

Features

- Soaking in Advanced Enzyme Power Drive solutions will remove stains before they become permanent.
- Food soil, body soils, and general soils are all removed without damage to the fabrics.
- Advanced Enzyme Power Drive's built-in deodorants remove even the most persistent odors.
- Advanced Enzyme Power Drive contains enzymes that loosen the protein content of soils for an easier, cleaner wash.
- Advanced Enzyme Power Drive can be used on a wide range of fabrics including cotton, poly-cotton and delicate synthetics.
- Advanced Enzyme Power Drive is free flowing powder that is easily dispensed and can be simply added dry to a wash cycle.
- Advanced Enzyme Power Drive is biodegradable.

Use Directions

- Soaking – Dissolve the powder thoroughly and immerse the article completely in the solution. Do NOT soak non-colourfast article. Some colours are colour-fast during normal washing but may run if soaked. Do not soak wool, silk, flame resistant or articles with metal fasteners.
- Stain Removal – Treat all stains promptly. Treat heavily stained articles with Advanced Enzyme Power Drive by soaking over night or for a minimum of 30 minutes.
- Colour Fastness – Wash non-colourfast articles separately, rinse and dry immediately.
- Hand and Safety Care – Rinse and dry hands thoroughly after use. People with sensitive or damaged skin should avoid contact with the washing solution or wear protective gloves. In case of eye contact rinse thoroughly with water.

Note: Very heavily soiled articles should be pre-treated before washing.

Also available in the JohnsonDiversey Laundry range:

- Drive Liquid Detergent 5L
- Drive Advanced Enzyme Power Concentrate 5kg
- Persil Professional High Performance Powder 6kg & 12.5kg
- Surf Concentrate Ocean Fresh 6kg & 12.5kg and Lemon Fresh 12.5kg
- Surf Liquid Lemon Fresh 5L
- Comfort Professional Fabric Conditioner 5L
- Huggie Professional Fabric Conditioner 5L
- Softly Premium Wool Wash 5L

For Best Results

- Always check the articles care label.
- Sort your wash into whites, light colours and dark colours and then by fabric groups.
- Never overload the machine as this can cause a poor wash, damage to garments and ultimately damage to the machine.
- Always use the correct amount of detergent, as too little can cause build up of grease, dirt and hard water salts which can damage your machine and too much is uneconomical.
- For best results use in conjunction with Comfort Fabric Conditioner for deep down softness.
