

Suma Inox

Stainless steel polish

D7.1

Description

Suma Inox D7.1 is a ready-to-use one-step light duty cleaner/polish for use on stainless steel surfaces that are not used in the preparation of food.

Key properties

Suma Inox D7.1 contains oils to provide a long-lasting protection and shine to stainless steel surfaces such as the exterior of fridges, freezers, ice making machines, utensil washers and other stainless steel surfaces.

Benefits

- Gives shine back to stainless steel surfaces
- Removes spots and marks from the surface
- Resists finger marks to maintain that just polished appearance for longer.

Use instructions

Suma Inox D7.1 is ready to use, and may be sprayed onto a soft dry cloth or paper. Make sure the treated surface is dry and polish to a lustrous shine. On larger surfaces it can also be sprayed directly onto the dry surface (**Use sparingly**) and polished to shine with soft cloth or paper.

Technical data

Appearance: White creamy liquid
Relative density (20 °C): 0.94
These figures are typical values and should not be interpreted as specifications

Safe handling and storage information

Full guidance on the handling and disposal of this product is provided in a separate Material Safety Data Sheet.
Store in original container. Avoid extremes of temperature.

Product compatibility

Under recommended conditions of use, we are unaware of any material compatibility issues.
