

## SafePack

The unique dishwashing system

### SafePack gives:

- Complete safety
- Ultimate simplicity
- Optimum efficiency

### Safety

- SafePack is completely sealed, so there is no contact with the operator.
- Because SafePack leaves no waste product, it can be disposed of without rinsing, eliminating product contact.

### Simplicity

- Colour coding and a product specific "lock and key" connector guarantee no product mix up.
- The box is easy to open, easy to connect and easy to dispose of when empty.
- Minimal training is required.

### Efficiency

- The design of SafePack ensures there is no product waste.
- SafePack uses the best product formulations to deliver on cleaning performance.
- SafePack gives a significant reduction in product waste packaging. The two components can be easily split and recycled.
