

MicroQuick^{TM/MC}

Microfiber Cleaning Cloths

*Not all microfiber is created equal. Only high quality microfiber will deliver the benefits you expect. **MicroQuick**^{TM/MC} Microfiber Cleaning Cloths pick-up dirt particles that conventional cloths leave behind.*

Benefits

- Cleaning Efficiency**
 Removes surface contamination more efficiently than regular towels and can be used on most surfaces.
- Decontaminates Surfaces**
 Helps to meet the recommendations of our Healthy High Performance Cleaning Program to clean and decontaminate hard surfaces.
- High Quality and Durable**
MicroQuick^{TM/MC} cloths are 100% pure microfiber constructed using circular knitting and wrapper stitching. This delivers a high performance cloth that cleans and keeps its original shape, despite repeated laundering up to 500 washes.
- Saves Money**
 Save money by eliminating the use of disposable paper towels, cloths and sponges.
- Versatile**
 Color-coded cloths can be used for multiple applications on a wide variety of surfaces, making training simple.
- Helps to earn LEED-EB Certification**
 For a complete system, combine **MicroQuick**^{TM/MC} microfiber cloths with JohnsonDiversey Green Seal Certified products to meet Indoor Environmental Quality Credit 10.6 of the U.S. Green Building Council's LEED-EB Green Building Rating System.

Where do I use it?

MicroQuick™/MC Microfiber Cleaning Cloths can be used for cleaning a wide variety of surfaces such as glass, mirrors, countertops, toilet seats, floors, walls, computer screens, telephones, and more. (See examples to the right).

How do I use it?

These microfiber cloths are color-coded so they can be matched to specific areas and applications. (See examples to the right).

For Disinfection: Spray the appropriate disinfectant onto the surface. Allow product dwell time according to label directions and wipe surface dry with the microfiber cloth.

For General Cleaning: Lightly spray the recommended product onto the microfiber cloth and wipe the surface clean. For stubborn soil, spray additional product onto the surface and wipe dry.
