

Clean and dry tableware on time, every time

Suma Rinse A5

- Ensures quick drying
- Gives a streak and spot-free finish
- Gives economy in use

Ensures quick drying

Suma Rinse A5 is a concentrated, low foam neutral rinse additive that actively enhances the rinse process in your dishwasher, removing the need for manual drying, saving time and labour and reducing the risk of cross contamination.

Gives a streak and spot-free finish

Suma Rinse A5 contains a special blend of non-ionic surfactants that reduce the surface tension of the water, ensuring even drying and giving a spot and streak free finish on all cleaned surfaces. Suitable for all water conditions.

Suma Rinse A5

Economy in use

Suma Rinse A5 uses a highly efficient and concentrated formulation. This means users do not need to change product containers frequently, reducing health and safety risks and saving time and money.

Clean and dry tableware on time, every time

Suma Rinse A5 is a concentrated general purpose rinse additive suitable for use in all water conditions.

Usage Instructions

- The product is dispensed automatically with the built-in integral dispensing system in the dishwasher or with JohnsonDiversey automatic dispensing equipment.
- Ensure the rinse-aid product pick-up tube is below the surface level at all times.
- Dose at 0.2-0.5 ml/l depending on local water and conditions.

Top Tips

- Regularly empty, clean and re-fill the dishwasher.
- Always remove excess food residues.
- Stack the dishwasher correctly.
- Ensure both wash and rinse reach temperature.
- Check salt level in water softener.
- Replace detergent and rinse aid when empty.

Pack Details

Product code: 7010160
Pack size: 2x5L
Cases per pallet: 80 (4x20)
Outer Bar Code: 8711202921667
Inner Bar Code: 8711202911330

Product code: 7010131
Pack size: 20L
Cases per pallet:
Outer bar code: 8711202911309

Product code: 7511701
Pack size: 10L SafePack
Cases per pallet: 48 (2x24)
Outer bar code: 7615400744572

Technical Information

Appearance: Clear blue liquid
pH: 4.5-5.0
Density: 1.01g/ml
