

Raid Commercial Insecticide Residual Surface Spray Kills Crawling Insects

Raid Residual Surface Spray is formulated to kill crawling insects with a residual action.

Features and Benefits

- It kills cockroaches and other crawling insects in two ways:
 - 1) It kills insects fast; and,
 - 2) It keeps on killing with a residual action.
- Its residual action when sprayed onto surfaces, means that crawling insects will be eliminated when coming into contact with sprayed areas.
- It is suitable for spraying onto surfaces such as skirting boards, under sinks and counter tops, behind refrigerators (except gas or open unit types) and dishwashers.
- It is an environmentally friendly spray as it does not contain ozone damaging CFC's (Chlorofluorocarbons).
- The can is environmentally friendly as it is able to be recycled once empty.

Product Usage

How to use Raid Residual Surface Spray

- Shake can well and hold can 30cm from surface, then spray insects directly, or where insects crawl. Spray in cracks and crevices where insects live and breed. Repeat as necessary.
- **COCKROACHES:** Spray surfaces such as skirting boards, under sinks and counter tops, behind refrigerators (except gas or open unit types) and dishwashers.
- **ANTS:** Spray nests, trails, cracks and holes, which afford entry; also spray around doors and windows.
- **SILVERFISH:** Spray surfaces of infested areas, like bookshelves, cupboards, skirting boards.
- **FLEAS:** Spray infested surfaces in rooms.
- **SPIDERS:** Spray directly onto webs, eaves and areas like bookshelves, cupboards, skirting boards.
- **DO NOT USE AS A SPACE SPRAY.**

Approvals
