

Pace^{TM/MC}

High Impact Floor Cleaning System with Microfiber Pads

Delivers rapid, high efficiency cleaning on all types of floors, significantly reducing overall operating costs while providing substantial environmental and ergonomic benefits.

Ergonomic Design

Pace^{TM/MC} High Impact Floor Cleaning Tool uses no buckets or wringers and eliminates heavy lifting and strain commonly associated with mop and buckets.

Value

- **Saves Time**
Contains an integrated solution dispensing system. Reduces cleaning time by 50 percent or more. No need to fill and empty buckets.
- **Ease of Use**
A choice of two color-coded bottles and three microfiber pad types ensure multiple application areas can be cleaned efficiently and correctly.
- **Safety**
Floors can be cleaned AND dry in a matter of minutes using the Pace^{TM/MC} system, minimizing the risk of slip & fall accidents due to wet floors.
- **Versatile**
Complete flexibility for multiple daily floor cleaning applications. Can be used for damp mopping, wet mopping, dust mopping and disinfecting while eliminating cross-contamination.

The combination of the Pace^{TM/MC} patented application system together with JohnsonDiversey products and microfiber pads delivers unsurpassed cleaning performance.

Applications

Damp mopping, wet mopping, disinfection and dust mopping for a wide variety of customer sectors such as retail, lodging, food service, government, healthcare, education, and BSCs.

Easy to Use

Bottles can be filled quickly and easily using the RTD^{TM/MC} dispensing system or any other appropriate JohnsonDiversey dispensing system.

Responsible Solutions^{TM/MC}

The Pace^{TM/MC} system's innovative design reduces water and product disposal by 90 percent when compared to conventional mopping methods.
