

Raid Commercial Insecticide – Dual Action

Crawling & Flying Insect Killer

Raid Dual Action is formulated to kill flying and crawling insects with a residual action.

Features and Benefits

- A multi-purpose insect killer that kills most flying insects.
- Dual Action has a residual action when sprayed onto surfaces, meaning that crawling insects will be eliminated when coming into contact with sprayed areas.
- Dual Action can be safely sprayed onto plants where insects usually hide and breed.
- It is an environmentally friendly spray as it does not contain ozone damaging CFC's (Chlorofluorocarbons).
- The can is environmentally friendly as it is able to be recycled once empty.

Product Usage

How to use Raid Dual Action

- Shake can well and spray 1-2 short bursts in to the air in the direction of the insects
- To eliminate crawling insects, shake can well and spray 30cm from the surface where the insect crawls. It can be sprayed into cracks and crevices where insects live and breed

Approvals

NZ Pesticides Board No. 5878
MAF Approved Type B (Fish Game Meat)
