

CHARGE Laundry Powder – NEW FORMULATION

Charge in ~ Stains Out

Charge Laundry Powder has been reformulated with dual enzymes and a fresh, new perfume giving you the combined benefit of greater cleaning power to remove stain and dirt from clothing, while leaving a fresh, clean smell.

Features and Benefits

- NEW Charge Laundry Powder gives outstanding cleaning performance in all water conditions – hard or soft; hot, warm, or cold. Independent tests conducted by the Australian Wool Testing Authority Ltd (AWTA Textile Testing) prove NEW Charge has excellent cleaning power.
- Because NEW Charge Laundry Powder contains dual enzymes, it means stains like collar/cuff grime, grass/dirt, chocolate, tomato sauce, make-up, perspiration, gravy, fruit juice, ice-cream, blood, baby food and cooking oil can be removed from all fabric types.
- The dual enzymes in NEW Charge Laundry Powder means you use less powder under hard water conditions making it more economical in use.
- NEW Charge Laundry Powder is safe to use on whites and coloured fabric, leaving them bright, clean and fresh smelling.
- For really tough stains, NEW Charge Laundry Powder can be used as a pre-wash soaker prior to normal washing, thus giving you more power to tackle heavily soiled clothing.
- NEW Charge Laundry Powder is suitable for use in top loading automatic washing machines.
- Because NEW Charge Laundry Powder is free flowing, this ensures no clogging of your washing machine.
- NEW Charge Laundry Powder has a new, fresh perfume that leaves clothes smelling really fresh and clean.
- NEW Charge Laundry Powder is biodegradable making it kind to the environment.
- NEW Charge 15kg box is fully recyclable. Simply flatten the box and leave out for your recycling collection agency to pick up.

How to use NEW Charge Laundry Powder

	NORMAL LOADS	HEAVY LOADS/HARD WATER
TOP LOADING AUTOMATICS	¾ cup* (or approx. 100gm)	1 ¼ cup* (or approx. 165gm)

*1 cup = 250ml (or approximately 130gms of Charge Laundry Powder)

Charge Products available in:

Helpful Advice

- Read and follow garment care label.
- Begin filling machine with water, add detergent, and then add clothes.
- For best results, avoid overloading the machine with clothes.
- Do not add chlorine bleach.
- Wash non-colourfast garments separately.
- CHARGE Laundry powder is suitable for use in all water temperatures.

Pre-Wash Soaking Advice

- Dissolve 1/2cup of CHARGE Laundry Powder per 5L of water.
- Leave garments to soak for 30 minutes or, for best results, overnight.
- Transfer garments to the machine and wash as usual.
- Do not soak non-colourfast garments.

Special Garments

- This product is not suitable for washing wool, silk, or other delicate garments.
