

The Steps to Effective Hand Hygiene

Hand Washing

1.

Wet hands

2.

Dose with antibacterial hand soap

3.

Wash hands thoroughly

Work lather over all parts of the hands as shown

4.

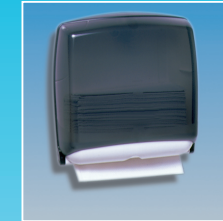

Rinse hands thoroughly

Remove all traces of lather

5.

Dry hands

You should now have achieved satisfactory hand hygiene

Disinfection

6.

Dose with alcoholic disinfectant rub

Rub hands for 30 seconds until alcohol evaporates
