

Clax Hypo

Liquid Chlorine Bleach and Destainer

Description

Clax Hypo 4AL1 is a chlorine bleach suitable for the removal of stubborn stains from white fabrics.

Key Properties

Clax Hypo 4AL1 provides excellent stain removal on difficult to remove stains such as blood, food and mildew. In order to obtain good bleach performance and at the same time causing minimal fabric damage, temperature of the wash solution should not exceed 60°C.

Clax Hypo 4AL1 is not recommended for use on coloured work unless it is shown that the colours won't fade.

Benefits

- Excellent destainer for all types of white fabric
- Economical
- Effective on most protein stains
- Improves whiteness

Instructions for Use

1. Dose via automatic dosing equipment.
2. **Clax Hypo 4AL1** is typically dosed into the next step after the main wash. Water level should be low and temperature should not exceed 60°C and optimum pH 10 -10.8.

Light – Heavy soil 3-10ml/ kg dry goods

Technical data

Appearance	Pale yellow liquid
Specific Gravity	approx 1.2
pH (neat)	approx. 12.6
