

Product Information Sheet

Suma Inox

Stainless Steel Polish

Description:

Suma Inox D7 is a ready to use polish for use on stainless steel surfaces, which are not used for the preparation of food.

Key Properties:

Suma Inox D7 is a specially formulated polish for use on stainless steel surfaces, which are not used for the preparation of food, like refrigerator and freezer doors, trolleys, dishwashing machines etc. The special blend of oils provides protection and leaves a shiny surface. Resists finger marks and water spotting.

Benefits:

- Helps protect surfaces by forming a protective film
- Keeps surfaces looking good, with a smooth lustre
- Maintains a polished appearance for longer

Instructions for Use:

Suma Inox D7 is ready to use product and should not be mixed with water.

1. Squirt onto a clean cloth
2. Apply on clean and dry surface and polish

Technical Data:

Appearance: Clear liquid
Relative Density [20°C]: 0.83

The above data is typical of normal production and should not be taken as a specification.

Precautionary Statement:

For further information refer to current Material Safety Data Sheet.
